

TOP IDEAS

PERSONAL EXPENSE TRACKER

1. Personal expense tracker is an application that the user can access it by giving their expenses details. The details we add to the application get stored in the IBM cloud. The main work of personal expense tracker starts when we exceed our daily expenses; it gives us an email alert. That's how the Personal expense tracker application helps and solves our financial problems.

2. Personal expense tracker can also give the remaining expenses specific details like how much did we spend within the limit, how much amount remains that didn't have been spent beyond our limit at the end of the day at a particular time.

3. Personal expense tracker can be used for budgeting our expenses limit in a monthly basis, weekly basis and also as a day-to-day basis based on our convenience.
